Profile Summary

Results-driven Software Engineer with hands-on experience in full-stack development using JavaScript (React, Node.js). Skilled in designing secure, high-performance web applications with REST APIs, MySQL/MongoDB databases, and Docker-based deployments. Eager to contribute to scalable systems while continuously learning emerging technologies.

Professional Experience

Software Developer (Officer Grade-1) **Sep 2024 – Present**
Bangladesh Finance PLC.

- Designed,developed & maintained 4 full-scale web platforms (Main, Islamic, Securities, and Capital websites) using Next.js, React.js, Mongo DB and Node.Js, improving client engagement and brand presence.
- Spearheaded development of the Bangladesh Finance Mobile eKYC App, reducing manual verification time by 60% and improving onboarding efficiency.
- Integrated secure RESTful APIs, ensuring compliance with financial-grade security standards."
- Built a QR code–based File Archiving System, automating document retrieval and reducing file access time by 70%.
- Collaborated with UI/UX teams to ensure responsive, user-friendly, and secure digital platforms.

Software Developer Intern **Jun 2024 – Aug 2024**
Bangladesh Finance PLC.

- Assisted in developing and maintaining internal company softwares using React.js, PHP, and MySQL, contributing to multiple live production systems.
- Enhanced system performance by optimizing frontend components, improving load times by up to 25%.
- Maintained internal company systems using PHP, MySQL, and React.js, following MVC architecture and secure REST API integration."
- Worked with senior developers to debug and test mission-critical features, improving software reliability and reducing error rates.
- Gained practical experience in web security, database optimization, API integration, and Agile software development.
- Built strong problem-solving, communication, and collaboration skills in a fast-paced fintech environment.

Projects

Bangladesh Finance Main Website *Website*

- Developed a responsive, full-stack corporate website using Next.js and Node.js, enabling dynamic content management, improved load times, and seamless deployment via Docker and nginx on a VPS.
- Tools Used: Next.js, Node.js, Express.js, MongoDB, Git, Docker

Bangladesh Finance Islamic Wing Website *Website*

- Built a secure and scalable website from scratch with a custom-designed UI in Figma, integrating Next.js frontend and Node.js/Django backend for efficient data handling and modern UX.
- Tools Used: Next.js, Node.js, Django, Python, Express.js, MongoDB, Git, Docker, nginx

Bangladesh Finance Capital Website *Website*

- Developed a full-stack corporate website with dynamic content management, real-time updates, and responsive design, enabling efficient client interaction and secure data handling.
- Tools Used: Next.js, Node.js, Express.js, MongoDB, Docker, Git

Dhaka University CSE Alumni Association (CSEDUAA) Website *Github*

- Developed a full-stack web platform featuring user registration, authentication, admin dashboard, and event notification system using React.js and Django.
- Tools Used: React.js, Django, Python, Docker, Express.js, PostgreSQL

Achievements & Highlights

- Built and deployed 4 production-grade corporate websites for a leading financial institution within 6 months.
- Selected as top-performing intern and promoted to Software Developer (Officer Grade-1) within 3 months.

Education

Bangladesh University of Professionals (BUP) **Jan 2025 – Present**
M.Sc in Information Systems Security (MISS) (Professional)

- GPA: 3.5/4.0
- **Coursework:** Penetration testing, Digital Forensics, Secure Software Design

University of Information Technology and Sciences (UITS) **Jan 2020 – June 2024**
B.Sc in Computer Science and Engineering

- GPA: 3.2/4.0
- **Coursework:** Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Web Application Development, Object-Oriented Programming, Artificial Intelligence.

Certifications & Courses

- **Programming for Everybody (Getting Started with Python)** – Coursera
  Certificate
- **Python Data Structures** – Coursera
  Certificate
- **A Complete Guide to the Flutter SDK & Flutter Framework for Building Native iOS and Android Apps** – Udemy (In Progress)

Technical Skills

Programming Languages: JavaScript (ES6+),Typescript, PHP, Python, C, C++
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Django , Flutter, FastApi
Databases: MySQL, MongoDB, PostgreSQL
DevOps & Tools: Docker, nginx, Git, GitHub, NPM
Web Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS, REST APIs, MVC Architecture
Operating Systems: Linux (Ubuntu), Windows
Others: Object-Oriented Programming, Figma,

Core Competencies

Agile Development • Problem Solving • Team Collaboration • Technical Documentation • Communication • Continuous Learning • Code Review Practices
